

**CITY OF COCONUT CREEK
JOB DESCRIPTION**

JOB TITLE: Wastewater Supervisor
DEPARTMENT: Utilities & Engineering
FLSA STATUS: Non-Exempt

GENERAL PURPOSE:

Performs supervisory level work in support of the City's Wastewater Division within the Utilities and Engineering Department. Develops and administers preventative ensure sanitary system compliance through closed circuit television cleaning of gravity mains and wastewater pump components (electrical and mechanical) that will reduce run times and overtime callouts. Supervises Wastewater Division personnel and oversees contracted wastewater projects within the capital improvement program. Position typically supervises a small to mid-size team of employees and schedules day-to-day work activities to optimize efficiency and productivity. Position requires a thorough understanding and application of principles, theories and concepts in the assigned function or business area.

EXAMPLES OF ESSENTIAL FUNCTIONS:

The list of essential functions, as outlined herein, is intended to be representative of the tasks performed within this classification. It is not necessarily descriptive of any one position in the classification. The omission of an essential function does not preclude management from assigning duties not listed herein if such functions are a logical assignment to the position.

- Supervises and schedules daily operations and maintenance activities in the Wastewater Division
- Manages and monitors work performed by in-house personnel and contractors working for the City
- Creates and schedules daily, weekly and monthly assignment of work orders and preventative maintenance
- Trains subordinate personnel in the construction, installation, maintenance, troubleshooting and repair of the City's wastewater system
- Performs and monitors wastewater pump station operation via the Supervisory Control and Data Acquisition (SCADA) system
- Maintains and actively participates in Emergency Callout Program with responsibility for all wastewater pump station electrical failures and mechanical issues
- Coordinates projects and/or plans for the Wastewater Division with the Utility Engineer through discussion on a daily basis
- Attends scheduled meetings with contractors, engineers and consultants
- Responsible for procurement and purchase of replacement stock materials and supplies for the Wastewater Division
- Requests purchase orders for capital improvement projects

CITY OF COCONUT CREEK JOB DESCRIPTION

- Coordinates asset management with the Information Technology department utilizing the Geographic Information System (GIS) to reflect field conditions
- Participates in the development of the annual operating budget and capital improvement program (CIP)
- Provides support to other divisions as requested by Utilities and Engineering Senior Management
- Performs other duties as assigned and/or required

MINIMUM QUALIFICATIONS:

High school diploma or GED and technical training in related discipline supplemented by six (6) or more years' experience in wastewater operations and management. An equivalent combination of education, certification, training, and/or experience may be considered.

Must possess a valid Florida Commercial Driver License (CDL) Class B or higher; Florida Water and Pollution Control Operator's Association Wastewater Technician Class "C" and "B"; and electrical certifications and field experience working with generators, high voltage, and industrial control systems.

KNOWLEDGE, SKILLS, AND ABILITIES:

- Knowledge of occupational hazards and ability to implement all necessary safety precautions
- Advanced knowledge of tools, equipment, technology, and techniques used in the construction, maintenance and repair of wastewater collection systems and related facilities
- Skill in providing good customer service
- Ability to make sound decisions based on City ordinances and department policy
- Ability to train and provide leadership to subordinates
- Ability to read and comprehend construction plans and contract documents
- Ability to respond to and stay at the workplace for extended periods of time during emergencies, as required
- Ability to use critical thinking skills to arrive at solutions and suggest improvements to processes
